

## Features

- Products use well-known and high-quality chips, charging more efficient and safe.
- Use the high quality and power battery with optimized charging and discharging power to make power banks safe, reliable, and long service life.
- Super small design, easy to carry and use.
- Built with AC charger and 2 charging cables, more powerful, more convenient to use.
- Built with Type-C cable and L-cable, weaving materials, more stronger to use. L-cable supports 12W discharge, Type-C supports to discharge 22.5W max. Compatible with iPhone 15-16 series and all Android phones fast charge.
- Products adopt innovative design appearance, optimize high-quality materials, and select high standard manufacturing process, with strict quality control to provide consumers with good products.

## Packing details

- Power bank, ManualX1

## Specifications

|                        |                                                      |
|------------------------|------------------------------------------------------|
| Product                | 2 in 1 AC fast charge power bank with built-in cable |
| Battery Energy         | 10000mAh 3.85V/38.5Wh                                |
| Rated Capacity         | 5800mAh(5V~2A)                                       |
| Adapter mode           |                                                      |
| AC Input               | AC 180V-240V 50/60Hz 0.3A                            |
| Output                 | 5V~2.4A                                              |
| Model                  | T1778LF                                              |
| Power bank mode        |                                                      |
| Type-C Input           | 5V~2.4A, 9V~2A, 12V~1.5A, 18W Max                    |
| Type-C Output          | 5V~3A, 9V~2.22A, 10V~2.25A, 12V~1.67A, 22.5W Max     |
| Type-C Cable Output    | 5V~3A, 9V~2.22A, 10V~2.25A, 12V~1.67A, 22.5W Max     |
| USB-A Output           | 5V~3A, 9V~2A, 10V~2.25A, 12V~1.5A, 22.5W Max         |
| Lightning Cable Output | 5V~2.4A, 12W Max                                     |
| Total Output           | 5V~3A, 15W Max                                       |

## Power Indicators

100% 100%Power

0% 0%Power

The LCD display will go from 100% to 0%, when it's around 0%, means the power is low, please recharge it.

## Notes and Warnings

- ★ If this device is not used for a long time, please charge it at least every 3 months
- ★ It might produce slight heat during charging, which is normal as long as it's below 55°C
- ★ Always keep this device dry and do not clean it with chemical agents
- ★ Go green with XIPIN and recycle this device at designated place
- ★ Children must use it under the guidance of adults.
- ★ Do not crash, disassemble, impale or put this device into humid conditions.
- ★ Do not use it to charge devices with incompatible current and voltage, which will cause fire or other problems

## FAQ

- ★ When it's not charging for this device:
  - Please check the cable, charger or adapter used are working
  - If not, please choose compatible components to charge it
- ★ When it's charging for the phone
  - Please make sure the power is on and there is power left in this device
  - If above are checked OK, please go to the local retailer for assistance

## Warnings

- If the battery is not replaced properly, there is a risk of explosion, and only the same type or equivalent type of battery can be replaced; Only maintenance personnel can be replaced, not ordinary personnel;
- The battery shall not be exposed to such conditions as sunlight, fire or similar overheating
- When the product is used, it should be placed on the desktop. If it needs to contact the human body, the contact time should be less than 10s.
- Do not use after soaking water.
